## Maintenance Fitter

**OPPORTUNITY:** Reporting to the Dairy Site Manager, the successful candidate will be responsible for maintaining a wide range of mechanical process equipment and optimising plant performance. The role also features monitoring of plant services and maintaining equipment and process records according to plant systems.

### Key responsibilities:

- Provide high level technical support in a high-volume processing environment
- Troubleshooting equipment related process problems and equipment failures and carry out repairs
- Participate in planned preventative maintenance programmes
- Maintain accurate data for equipment analysis
- Provide cover for production operators as required in a shift work environment
- Ensure that a safe working environment for self, work colleagues and equipment is maintained at all times and apply good house-keeping skills

### The ideal candidate will have:

- A FÁS mechanical time-served apprenticeship with senior trade qualification or equivalent with at least 3 years post qualification experience in a high-volume process manufacturing environment
- Demonstrate experience and ability in mechanical assembly and fault finding on automated equipment
- A good understanding of plant service systems (steam, compressed air, chilled water etc).
- Welding experience
- A good working knowledge of hydraulics/pneumatics and an ability to read engineering drawings
- Experience of working in a Lean Manufacturing environment
- The ability to work efficiently and effectively on own initiative and as part of a team
- Strong communication and interpersonal skills

### APPLICATION PROCESS:

The company reserves the right to select a shortlist from the applications received.
