

Microsoft Dynamics Business Analyst

Aurivo House, Finisklin Business Park, Sligo

Aurivo Co-op is a large multi-purpose Co-operative engaged in a wide range of activities including dairy processing, liquid milk distribution, animal feed milling, retail stores, e-commerce, garden centres, livestock marketing and sports nutrition. In Aurivo our values define how we operate, employing over 600 people directly and providing employment for many others in wide range of activities including transport & distribution.

Aurivo has its headquarters in Sligo based in the Northwest of Ireland with operations across a multitude of sites including two dairy processing plants, one animal feed mill, 34 Homeland stores, four livestock marts and offices based in London, United Kingdom.

We are engaged in a Dynamics 365 (D365) Finance and Operations project as part of a larger business transformation initiative. D365 will be replacing several existing ERP solutions such as JDE and Microsoft NAV but will also require the design and implementation of new automated processes to replace key manual business processes in functional areas such as manufacturing, inventory management, sales order management and HR.

Opportunity

Microsoft Dynamics Business Analyst – Programmer expert requiring not only D365 functional knowledge but also real-world experience and skills in designing and building systems integrations

Key Responsibilities

- Initially as a member of the D365 implementation project, partner with the business to implement D365 successfully and efficiently across our 5 business units in Ireland and the UK
- Microsoft Dynamics D365 technical expertise and D365 functional knowledge
- Real world experience and skills in designing and building systems integrations
- Participate in the delivery of business systems support, especially as it relates to D365 to business systems users
- Actively participate in project planning, estimation, requirements analysis, solution design and change implementation
- Support as a resource for system support and other non-365 projects from time to time
- Participate in the out-of-hours emergency on-call rot
- Travel may be required to various group sites, therefore, a full clean driving license is required

The ideal candidate will have

- 5+ years' experience in implementing and supporting Microsoft Dynamics 365, AX or NAV – a minimum of 2 years of D365

- 5+ years' development experience using the Microsoft development stack
- 5+ years' database design and development using MS SQL
- 5+ years' business analysis and project management experience in the areas of ERP, CRM, BI, EPOS and optionally agribusiness applications
- Strong project management experience
- Ability to work under pressure and to demanding timelines
- Excellent oral and written communication skills

Optional

1. Certification in project management methodologies
2. Experience of leading and/or participating in business change initiatives
3. A primary or master's degree in computer science or business field
4. Ability to network, build strong relationships and influence effectively

Application Process

The company reserves the right to select a shortlist from the applications received.

Please forward updated CV for the attention of Deirdre McCaffrey HRBP to careers@aurivo.ie before **11th December 2020**.
